

**MULTIPLYER**

The game supports local multiplayer of up to four players.

During multiplayer, players play against each other. Releasing energy of your robot decreases the energy of the opponent's robot.

To start playing:

1. players agree on a music track
2. Each player selects their preferred robot
3. Each player assigns a power-up to their robot
4. Game can start

# ACTION PACKED IN 3 PLAY TYPES

The ten levels alternate play types, depending on the robot style.

Some robots assemble, others drive through the lab and a few fight the evil oil kingpin.

Gameplay is fundamentally the same across each type. It expands in input complexity, visual and narrative style.
